# Dedicated care for your unique needs

The UnitedHealthcare Assisted Living Plan includes a **dedicated care team** — including a nurse practitioner or physician assistant — that help to customize your care to what's right for you.

We offer over 20 years experience coordinating care to you in your home. We work with you, your family and your primary care provider to help keep everyone up to date on your health.

Our dedicated care team provides **phone support 24 hours a day, 7 days a week** to help address questions or health needs you may have.

---

**This means you can receive more hands-on care that meets your individual needs.**

## A TREMENDOUS HELP

“The nurse practitioner is so involved, and that’s **one of the things we love** – that they initiate phone calls to the family and other physicians and consulting physicians, and then follow up with the family to let them know, which gives them **peace of mind**.”

We take care of a lot of people here and [the nurse] takes care of one person at a time and lets us know everything they need. **It helps tremendously.**”

— **Kristin Quiles**  
Social Services Director

# Our health care practitioners. Your around-the-clock support.

Our dedicated care team provides **phone support 24 hours a day, 7 days a week** to help address questions or health needs you may have.

## Personal attention

- Create a personalized care plan
- Attend to your needs and concerns
- Perform ongoing assessments to enhance care
- Develop relationships with you through face-to-face visits

## On-site care

- Provide you with hands-on care in the community
- Limit transit to unfamiliar surroundings for tests and treatments

## Preventive care

- Deliver preventive and follow-up care
- Monitor ongoing treatment to get the most out of your care
- Anticipate and identify health concerns before they become more serious

## Enhanced communication

- Provide ongoing family education and engagement
- Serve as a primary contact for the teams involved in your care
- Facilitate communication between family members, primary care providers and community staff

## Coordinated care

- Help coordinate care plans
- Help health care providers and community staff work together to provide needed care and address urgent issues
- Incorporate care plan into hospitalizations, emergency room visits and outpatient procedures to minimize care gaps

## A SOURCE OF COMFORT

“I am **very pleased with the services** provided by UnitedHealthcare. Being on site, they have assisted my mother with lung X-rays, medication, blood draws, ultrasounds and many other services that would have required a doctor’s office or hospital.

**The practitioner is proactive** in diagnosing any change in mom’s health, which reduces stress and discomfort while battling her illness. They communicate well with me and my family, and also mom’s primary care doctor. I strongly believe they are a wonderful addition to mom’s medical care.

I would **highly recommend** this plan to all residents in assisted living or long-term care.”

— **Mary Kay Meier**  
Daughter of resident

# Let us help you understand Medicare

A UnitedHealthcare Assisted Living Plan is a specialized Medicare Advantage (Part C) and Part D plan. It is a great option for residents in Assisted Living, Independent Living and Memory Care Communities. Here are a few key things to know.

## Original Medicare

Original Medicare is the traditional fee-for-service program provided through the federal government. It includes Parts A and B:

- Medicare Part A (hospital insurance): Part A covers inpatient hospital stays, care in a skilled nursing facility, hospice care and some home health care
- Medicare Part B (medical insurance): Part B covers certain doctors' services, outpatient care, medical supplies and preventive services

## Medicare Supplement

A Medicare Supplement plan is offered by private companies to supplement Medicare coverage. This insurance plan can cover the difference or "gap" between the expenses reimbursed to providers by Medicare Parts A and B.

## Medicare Advantage

Medicare Part C: A Medicare Advantage Plan is offered by private companies approved by Medicare. It is sometimes also called "Part C" or "MA Plan."

If you join a Medicare Advantage Plan, you still have Part A and Part B coverage. You'll get coverage for your hospital insurance (Part A) and medical insurance (Part B) from the Medicare Advantage Plan — not Original Medicare. Medicare Advantage Plans often include prescription drug (Part D) coverage.

### A UNITEDHEALTHCARE ASSISTED LIVING PLAN

#### Special Needs Plans

Medicare Special Needs Plans (SNPs) are a type of Part C Medicare Advantage Plan. They limit membership to people who meet certain criteria (such as residents in an assisted living community). Medicare SNPs tailor their benefits, provider choices and drug formularies to best meet the needs of the groups they serve. A UnitedHealthcare Assisted Living Plan is a SNP for those eligible for Original Medicare Parts A and B, live in the plan service area, and require the same level of care as an individual who lives in an institutional setting.

#### Prescription medications

Medicare Part D: Part D is prescription drug coverage. Plans cover many medications prescribed by your doctor or other qualified health professionals.

# Helpful definitions

Understanding assisted living can sometimes feel like trying to learn a new language. Here are some common terms to help make things easier.

An **assisted living community** is a long-term living option for people who are mostly independent but may need some personal care services or a low level of medical care, such as transportation, medical monitoring and basic supervised care available around the clock.

**Independent living** offers residents a safe living environment with minimal assistance and convenient access to dining, medical care, entertainment and more.

**Skilled nursing facility** and **nursing home** describe the same thing: a residential facility that provides on-site, 24-hour medical care. Many are licensed health care residences for people who need a higher level of medical care than they'd get in an assisted living community.

**Memory care** in an assisted living community is a specific type of care for people with dementia, Alzheimer's and other memory issues. Also called **special care units (SCUs)**, they are typically secured spaces with 24-hour supervised care for those with cognitive needs.

**Medicaid** is a joint federal and state program for people of all ages whose income and resources are not enough to pay for health care. A **dual eligible** person is eligible for both Medicare and Medicaid. To find out more about Medicaid, visit [medicaid.gov](https://www.medicaid.gov).

## About Medicare and Medicaid

A UnitedHealthcare Assisted Living Plan is a specialized Medicare Advantage (Part C) and Part D plan that is a great option for residents in Assisted Living, Independent Living and Memory Care Communities.

- Medicaid is not a requirement for the plan
- Enrolling in the plan will not affect a Medicaid application or a person's Medicaid status
- Medicaid may cover certain things (such as room and board) not covered by the plan

The UnitedHealthcare Assisted Living Plan may be a good fit for someone who is Medicaid "pending" or is spending down assets to become Medicaid eligible.

# Are you eligible?

## You are eligible for a UnitedHealthcare Assisted Living Plan if you:

- Are a Medicare beneficiary eligible for Medicare Part A
- Are enrolled in Medicare Part B
- Reside in the plan service area; and
- Meet the state criteria for Level of Care (LOC) needs assessment

Plans are insured through UnitedHealthcare Insurance Company or one of its affiliated companies, a Medicare Advantage organization with a Medicare contract. Enrollment in the plan depends on the plan's contract renewal with Medicare. Enrollee must be eligible for Original Medicare Parts A and B, live in the plan service area, and require the same level of care as an individual who lives in an institutional setting. UnitedHealthcare Insurance Company complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
